PREFACE

PRÉFACE

This volume, Maps and Demographic Statistics for Selected Mother Tongue Groups, Ontario, 1986, has been produced by the Ethnocultural Data Base Office of the Ministry of Citizenship. It updates similar volumes for 1976 and 1981. As in previous publications, provincial data are provided for the distribution of the major mother tongue groups in Ontario.

The data included in this publication are based on the June 3, 1986 Census of Population and Households conducted by Statistics Canada. These data have been acquired by the Ethnocultural Data Office from Statistics Canada through the Statistics Section of the Sectoral and Regional Policy Branch of the Ministry of Treasury and Economics. The maps were produced by the Geocartographics Subdivision of Statistics Canada in Ottawa.

This publication provides cross-tabulations on ten socio-economic variables for twenty-four mother tongue groups. The criterion used for determining the inclusion of a mother tongue group in this volume is that the total language group, or any component of that group, must represent at least one percent of the total Heritage language population for that geographic area. A dictionary of Statistics Canada definitions is appended to this publication for clarification of terminology

In order to better reflect the linguistic reality in Canada, under the 1986 guidelines, individuals could report more than one mother tongue if they had learned them at the same time and had spoken one as frequently as the other when they were children. The number of multiple responses given in the 1986 Census was 380,435 or 4.2% of the population.

In 1981, only single responses (i.e. one mother tongue) were accepted, whereas in 1986, single and multiple responses were accepted. This publication is based on the single response data only as it is the only data that can be cross-tabulated at the individual mother tongue level. Consequently, considerable care must be exercised in the interpretation of changes between 1981

The figures shown in this report have been subjected to a confidentiality procedure known as "random rounding" to prevent the possibility of associating small figures with any identifiable individual. Under this method, all figures including totals are randomly rounded (either up or down) to a multiple of "S".

Census data are collected either on a 100% basis (i.e. for all households) or on a 20% sample basis (i.e. from only a random sample of one in five households) with data weighted to provide estimates of the entire population. The weighted population (total or subtotal) may differ from that shown in data collected on a 100% basis. Such variation, in addition to the effect of random rounding, will be due to sampling.

In this publication, Maps and Demographic Statistics for Selected Mother Tongue Groups, Ontario, 1986. Tables 1 and 8 are based on the 100% dataset and Tables 2 to 7 and Table 9 are based on the weighted data of the 20% sample. Consequently, variations in the population figures of these tables are to be expected.

Le présent volume intitulé «Cartes et statistiques démographiques pour certains groupes de langues maternelles, Ontario, 1986», a été préparé par le Bureau de la Base de données ethnoculturelles du ministère des Affaires civiques. Il s'agit d'une mise à jour des volumes du même genre publiés à partir des données des recensements de 1976 et de 1981. Comme dans les publications précédentes, les données provinciales sont présentées en vue d'établir la répartition des principaux groupes de langues maternelles en Ontario.

Les données de la présente publication se fondent sur le recensement du 3 juin 1986 de la population et des ménages effectué par Statistique Canada. Le Bureau que la Base de données ethnoculturelles a obtenu ces données de Statistique Canada par l'intermédiaire de la Section de la statistique de la Direction des politiques sectorielles et régionales du ministère du Trésor et de l'Économie. Les cartes ont été préparées par la Sous-division de la géocartographie de Statistique Canada à Ottawa.

La présente publication comprend des tabulations recoupées sur 10 variables socioéconomiques touchant 24 groupes de langues matemelles. Le critère ayant servi à établir s'il faut inclure un groupe de langues maternelles dans le présent volume a été le suivant : l'ensemble du groupe linguistique ou toute composante de ce groupe doit représenter au moins 1 % de la population totale parlant des langues d'origine dans le secteur géographique en question. Pour faciliter la compréhension des termes utilisés dans la présente publication, une liste de définitions de Statistique Canada se trouve jointe en annexe.

Pour que soit mieux reflétée la réalité linguistique canadienne, conformément aux directives données en 1986, les personnes pouvaient déclarer plus d'une langue maternelle si elles les avaient apprises en même temps et qu'elles avaient employé autant une langue que l'autre, pendant leur enfance. Le nombre de réponses multiples fournies relativement à cette question lors du recensement de 1986 s'élevait à 380 435, ce qui représentait 4,2 % de la population.

En 1981, seules les réponses uniques (c.-à-d. une seule langue maternelle) ont été acceptées, alors qu'en 1986, on a accepté les réponses uniques et les réponses multiples. Toutefois, dans la présente publication, on n'a tenu compte que des réponses uniques étant donné que ce sont les seules données qui peuvent donner lieu à des calculs recoupés concernant la langue maternelle individuelle. Par conséquent, il faut faire preuve d'une grande prudence si l'on cherche à interpréter les changements survenus entre le recensement de 1981 et celui de 1986.

Les chiffres figurant dans ce rapport ont fait l'objet d'un «arrondissement aléatoire», procédé visant à garantir le caractère confidentiel des réponses en évitant que l'on puisse associer tout chiffre peu élevé à une personne identifiable. Selon ce procédé, tous les chiffres, y compris les totaux, ont été arrondis au hasard (soit à la hausse, soit à la baisse) à un multiple de «5».

Les données de recensement ont été prises en considération soit intégralement (c.-à-d. tous les ménages), soit dans une proportion de 20 % (c.-à-d. à partir d'un échantillon aléatoire correspondant à un ménage sur cinq), moyennant une pondération des données en vue de fournir

Any census data will be subject to error. Some of the errors will tend to cancel out over a large number of cases. In general, the proportion or rate of net random error increases as the population decreases. Thus, small data values should be used with some caution.

During the 1986 Census, Indian Reserves in Canada were incompletely enumerated. It is estimated that in Ontario, 12,000 people were missed on the incompletely enumerated Indian reserves. Although the approximate total of the missing population can be estimated, it is not possible to estimate any characteristics of this group. Because of the missing data, users are cautioned that comparisons (i.e. percentage change) between 1981 and 1986 are not exact. This publication lists only those people who responded to the Census and does not deal with the estimated missing population in any way,

Copies of this publication may be obtained from Publications Ontario, which is located at 880 Bay Street, Toronto. Still available are the publications containing detailed 1981 mother tongue data for Ontario and for nine Census Metropolitan Areas.

Further information about the Ethnocultural Data Base is available from:

Ethnocultural Data Base Office Policy Services Branch Ministry of Citizenship 77 Bloor St. W., 5th Floor Toronto, Ontario M7A 2R9 Telephone: (416) 965-5280

des estimations de la population totale. La population pondérée (qu'il s'agisse d'un total ou d'un total partiel) peut différer de celle indiquée dans le cas où les données sont prises dans leur totalité. Une telle variation, en plus de l'effet dû à l'arrondissement aléatoire, est imputable à l'échantillonnage.

Dans la présente publication «Cartes et statistiques démographiques pour certains groupes de langues maternelles, Ontario, 1986», les tableaux 1 et 8 sont basés sur l'ensemble de données pris dans sa totalité tandis que les tableaux 2 à 7 ainsi que le tableau 9 sont basés sur des données pondérées portant sur un échantillon de 20 %. Par conséquent, il faut s'attendre à des variations des chiffres de population figurant dans ces tableaux.

Toutes les données du recensement sont susceptibles d'erreur. L'effet de certaines de ces erreurs a tendance à être neutralisé lorsqu'on est en présence d'un grand nombre de cas. En général, la proportion ou le taux net d'erreur due au hasard augmente à mesure que décroît la population. C'est pourquoi la valeur des chiffres peu élevés doit être interprétée avec circonspection.

Au cours du recensement de 1986, les réserves indiennes au Canada n'ont pas été complètement recensées. On estime qu'en Ontario, 12 000 personnes ont été manquées dans la population indienne des réserves recensée. Bien que le total approximatif de la population non recensée puisse être estimé, il n'est pas possible d'apprécier les caractéristiques de cette population. En raison des données manquantes, l'utilisateur doit se tenir averti que les comparaisons (c.-à-d. les changements en pourcentage) entre les données de 1981 et 1986 ne sauraient être exactes. La présente publication ne recense que les personnes qui ont répondu au questionnaire du recensement et ne tient aucun compte du nombre estimatif de la population non

On peut se procurer des exemplaires de cette publication auprès de Publications Ontario dont les bureaux sont situés au 880, rue Bay, à Toronto. Sont encore disponibles chez Publications Ontario des publications comportant des données détaillées sur les langues maternelles de 1981 concernant l'Ontario et neuf régions métropolitaines de recensement.

HIGHLIGHTS

The following are highlights of mother tongue data for Ontario from the 1986 Census of Population & Households conducted by Statistics Canada on June 3, 1986.

MOTHER TONGUE

- Over one-third of Canada's population lives in Ontario. The 1986 population of Ontario is 9,101,695 which is an increase of 5.5% from 1981.
- To better reflect the linguistic reality in Canada, the 1986 Census is the first census in which Canadians could indicate more than one mother tongue. In Ontario, 380,435 or 4.2% of the population report having more than one mother tongue with 1.3% of the population indicating both official languages as their mother tongues.
- English is the mother tongue of more than 7 out of 10 Ontarians, while a language other than English or French is the mother tongue of nearly 2 out of every 10 people in Ontario. The actual non-English/non-French mother tongue population has increased by 21% from 1971 to 1986.
 This represents a slightly faster rate of increase in comparison to the 18% increase for the total population of the province over the same period.
- The changes which have taken place in the composition of Ontario's mother tongue population are reflective of changes in immigration trends. As recently as 1971, such language groups as Indo-Chinese (incl. Vietnamese), Tagalog/Pilipino, Turkic, Iranian, Korean and African languages were not sufficiently represented in the population to be coded by Statistics Canada. The increase in both the number and proportion of immigrants from Asia, the Middle East and Latin America has resulted in data collection for many new mother tongue groups.
- In the 1986 non-English/non-French mother tongue population, the largest groups are; Italian (21%), German (11%), Chinese (9%), Portuguese (8%) and Polish (5%). Several mother tongue groups experienced a decrease in numbers since 1981, including the Baltic languages (47%), Ukrainian and Finnish (approximately -25% each). Other groups increased in numbers including Chinese (+29%) and Indo-Iranian (+21%), but none as sharply as the Vietnamese (+58%).

A

- A growing proportion of Ontario's population is over 65 years of age and the rate of growth for that segment of the population exceeds the population growth rate for the province as a whole. The provincial population increased by 5.5% over the last five years, but the senior population increased by 14% and the under-15 population decreased by 9%.
- The population of the province's older or "traditional" mother tongue groups has a higher proportion of seniors than many of the newer groups. For example, seniors comprise 33% of the

FAITS SAILLANTS

Voici quelques faits saillants sur les données relatives aux langues maternelles pour l'Ontario tirées du recensement de 1986 de la population et des ménages effectué par Statistique Canada le 3 juin 1986.

LANGUE MATERNELLE

- Plus d'un tiers de la population du Canada vit en Ontario. La population totale de l'Ontario en 1986 était de 9 101 695 habitants, soit une augmentation de 5,5 % par rapport à 1981.
- Pour mieux refléter la réalité linguistique canadienne, le recensement de 1986 est le premier recensement lors duquel les Canadiens ont pu déclarer plus d'une langue maternelle.
 En Ontario, 380 435 personnes, soit 4,2 % de la population, ont déclaré avoir plus d'une langue maternelle et 1,3 % ont indiqué comme langue maternelle les deux langues officielles.
- L'anglais est la langue maternelle de plus de sept Ontariens sur 10, alors que près de deux personnes sur 10 en Ontario ont pour langue maternelle une langue autre que l'anglais ou le français. Le nombre réel de personnes ayant pour langue maternelle une langue autre que l'anglais ou le français a augmenté de 21 % de 1971 à 1986. Ce pourcentage d'augmentation constitue un taux de croissance légèrement supérieur à celui de la population totale de la province qui se chiffre à 18 % pour la même période.
- La modification de la composition de la population ontarienne en ce qui concerne la
 langue maternelle s'explique par l'évolution des tendances de l'immigration. Aussi récemment qu'en 1971, des groupes de langues tels que l'indochinois (y compris le vietnamien), le
 tagalog/pilipino, le turc, l'iranien, le koréen et des langues africaines n'étaient pas suffisamment représentés dans la population pour être recensés de façon distincte par Statistique
 Canada. L'augmentation à la fois numérique et proportionnelle des immigrants originaires
 d'Asie, du Moyen-Orient et d'Amérique latine a permis de recueillir des données sur un
 grand nombre de nouveaux groupes de langues maternelles.
- Au sein de la population recensée en 1986 dont la langue maternelle n'est ni l'anglais ni le français, les groupes les plus importants sont les Italiens (21 %), les Allemands (11 %), les Chinois (9 %), les Portugais (8 %) et les Polonais (5 %). Plusieurs catégories de langues matemelles ont enregistré une baisse numérique depuis 1981 : il s'agit, entre autres, des langues baltes (47 %) ainsi que de l'ukrainien et du finnois (environ -25 % chacun). Par ailleurs, a augmenté le nombre de locuteurs d'autres groupes de langues, dont le chinois (+29 %) et l'inco-tranien (+21 %); toutefois, aucun groupe n'a connu de hausse aussi marquée que le vietnamien (+58 %).

Baltic language population, 31% of the Ukrainian and 26% of the Finnish mother tongue group. Conversely, only 2% of the Viennamese population and 3% of Spanish speakers are over 65. In the English and French language groups, 11% of the population are seniors.

FAMILIES

Eighty-eight percent of Ontario's census families are husband/wife families. A very slight increase was noted in the proportion of lone-parent families from 11% in 1981 to 12% in 1986.
 Within specific mother tongue groups, the Spanish population has seen a dramatic rise in the number of lone-parent families, up 51% from 1981 and the Chinese population experienced a 37% increase in this area.

EDUCATION

Some mother tongue populations have traditionally shown a high level of educational attainment. This continued to be the case in 1986 with 40% of the Tagalog/Pilipino, 32% of the Indo-Iranian and 23% of the Chinese mother tongue populations having attained a university degree. In the total population, 12% of Ontarians hold a university degree.

PLACE OF BIRTH

One quarter of Ontario's total population was born outside Canada. As is to be expected, the
newer mother tongue groups have a high proportion of their population born outside Canada. For
example, 97% of Tagalog/Pilipino and 93% of the Vietnamese mother tongue population were
born outside Canada. It is interesting to note that of the total population with a mother tongue
other than English or French, 22% were born in Canada and in fact, one fifth were born in
Onlario.

OCCUPATION

The largest single occupational category in the province is clerical. One fifth of all employed
Ontarians work in this field, of whom 78% are female. Relative to the entire Ontario labour
market, the non-English/non-French mother tongue groups are proportionately over-represented
in several occupational categories, specifically in the areas of natural science and engineering, as
well as in such fields as manufacturing and construction.

NCOME

The 1986 average personal income for a male in Ontario is \$25,000 as compared to \$14,000
for a female. Females never match or exceed the average income of their male counterparts in

ÂGE

- Une proportion croissante de la population de l'Ontario a plus de 65 ans et le taux de croissance de ce segment de la population dépasse celui de l'ensemble de la population de la province; ce dernier a augmenté de 5,5 % au cours des cinq dernières années, tandis que le nombre des personnes âgées s'est accru de 14 % et celui des moins de 15 ans a diminué de 9 %.
- La population faisant partie des groupes de langues maternelles «traditionnels» ou établis au Canada de plus longue date compte une plus grande proportion de personnes âgées que bien des groupes établis au Canada plus récemment. Ainsi, les personnes âgées constituent 33 % de la population parlant les langues baltes, 31 % de celle parlant l'ukrainien et 26 % de celle parlant le finnois. Par contre, seulement 2 % de la population parlant le viennamien et 3 % des hispanophones avaient plus de 65 ans. Dans la population dont la langue maternelle est l'anglais ou le français, 11 % de la population sont des personnes âgées.

FAMILLES

• Quatre-vingt-huit pour cent des familles de recensement de l'Ontario sont des familles époux-épouse. On a observé une très légère hausse du pourcentage de familles monoparentales : de 11 % en 1981, il est passé à 12 % en 1986. Dans certains groupes de langues maternelles, on a constaté une augmentation speciaculaire du nombre de familles monoparentales, notamment chez les hispanophones et la population chinoise (51 % et 37 % respectivement par rapport à 1981).

ÉDUCATION

• Certains groupes de langues maternelles ont toujours eu un niveau de scolarisation élevé. Cela a continué d'être le cas en 1986 pour 40 % des personnes de langue maternelle tagalog/pilipino, pour 32 % des gens de langue maternelle indo-iranienne et pour 23 % de la population de langue maternelle chinoise, qui sont titulaires d'un diplôme universitaire. Dans la population totale, 12 % seulement des Ontariens détiennent un diplôme universitaire.

LIEU DE NAISSANCE

• Un quart de la population totale de l'Ontario est né à l'extérieur du Canada. Comme on pouvait s'y attendre, chez les groupes de langues matemelles plus récents, une proportion élevée de la population est née à l'extérieur du Canada. Ainsi, 97 % de la population ayant pour langue matemelle le tagalog/pilipino et 93 % de celle ayant pour langue matemelle le

any mother tongue group. When comparisons are drawn within the population whose mother tongue is other than English or French, it is evident that some groups exceed the provincial average and others fall below.

- In both the Vietnamese and Aboriginal language groups, the male and female income averages are \$14,000 and \$10,000 respectively which are under the provincial average. Whereas, in the older mother tongue groups such as Czech, Slovak and German, the average personal income of males (\$29,000) is over the provincial average.
- Females in the Tagalog/Pilipino mother tongue population have the highest average personal
 income (\$17,000) for females in Ontario. This may be related to the highest labour force participation rate (78%) for females in the province as well as the highest proportion of females with
 university degrees (41%). Nearly 60% of Tagalog/Pilipino mother tongue females are employed
 in either the clerical (32%) or medical/health (27%) occupations.

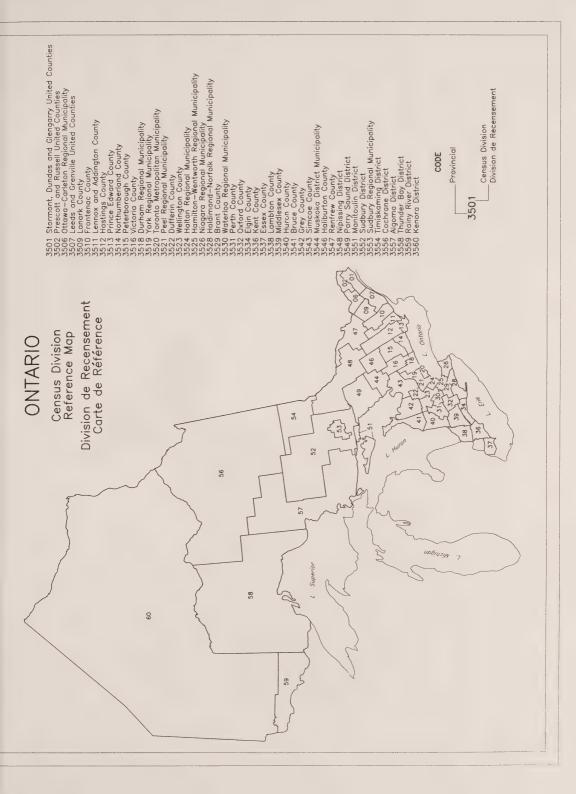

vietnamien sont nés hors du Canada. Fait intéressant à noter, 22 % de la population totale dont la langue maternelle est autre que l'anglais ou le français sont nés en Ontario.

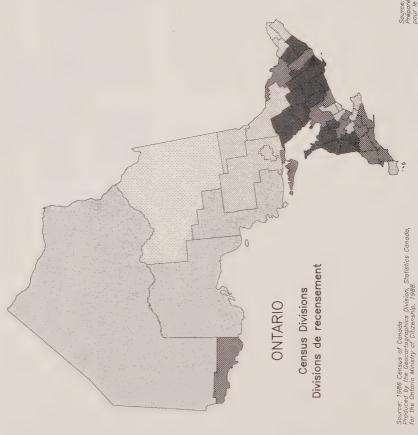

PROFESSION

La catégorie professionnelle la plus importante dans la province est celle du travail de bureau. Un cinquième de tous les Ontariens actifs travaillent dans ce secteur, lequel est composé à 78 % de femmes. Par rapport à l'ensemble de la population active de l'Ontario, les
groupes dont la langue maternelle n'est ni l'anglais ni le français son, proportionnellement
surreprésentés dans plusieurs catégories professionnelles, en particulier dans les domaines
des sciences naturelles et de l'ingénierie, ainsi que dans des secteurs comme l'industrie manufacturière et la construction.

REVENU

- Le revenu personnel moyen d'un homme en Ontario est en 1986 de 25 000 \$, alors que
 celui d'une femme s'élève à 14 000 \$. Dans aucun groupe de langue maternelle, le revenu
 moyen des femmes n'égale ou ne dépasse celui de leurs homologues masculins. Lorsque
 l'on fait le même genre de comparaison chez les populations dont la langue maternelle n'est
 ni l'anglais ni le français, il ressort que le revenu moyen de certains groupes linguistiques
 dépasse la moyemne provinciale alors que celui d'autres groupes se situe en deçà.
- Chez les groupes de langues vienamienne et autochtones, le revenu moyen des hommes et des femmes est respectivement de 14 000 \$ et 10 000 \$, et se situe donc en deçà de la moyenne provinciale. En revanche, chez les groupes de langues maternelles établis au Canada de plus longue date, comme les personnes de langue tchèque, slovaque ou allemande, le revenu personnel moyen des hommes, soit 29 000 \$, est supérieur à la moyenne provinciale.
- Les femmes de langue tagalog/pilipino touchent le revenu personnel moyen le plus élevé
 (17 000 \$) de l'ensemble de la population féminine en Ontario. Cela tient peut-être au fait que ce groupe avait le taux d'activité féminin le plus élevé dans la province (78 %) et comptait proportionnellement le plus grand nombre de diplômées universitaires (41 %).
 Près de 60 % des femmes de langue matemelle tagalog/pilipino exercent un emploi de bureau (32 %) ou une profession dans le secteur de la santé (27 %).

¹⁹⁸⁶ Census, Statistics Canada / RECENSEMENT DE 1986, STATISTIQUE CANADA *Estimated / CALCUL APPROXIMATIF

DEFINITIONS

POPULATION

MOTHER TONGUE - Refers to the first language learned in childhood and still understood by the individual at the time of the census. If the individual understands more than one language, the one first learned was reported. If two languages were learned at the same time, the language the individual used most often at home was reported. If the individual used the two languages equally often, both were reported. For a child who has not yet learned a language, the languages he/she will first be learning at home was reported.

TOTAL LABOUR FORCE (In Reference Week) - The total labour force comprises both the experienced and inexperienced labour force. It refers to persons who were either employed or unemployed during the week prior to enumeration. It is based on the population 15 years of age and over.

EXPERIENCED LABOUR FORCE - Derived by deleting the inexperienced labour force from the total labour force. It refers to those persons who are employed and those persons who ear presently unemployed although they have worked at some time in the 18 months prior to the census and are available to work.

INEXPERIENCED LABOUR FORCE - The inexperienced labour force consists of unemployed persons 15 years of age and over who have never worked or those persons who worked only prior to January 1, 1985.

NOT IN LABOUR FORCE - Refers to those persons, who, in the week prior to enumeration, were unwilling or unable to offer or supply their labour services. It includes persons who looked for work during the last four weeks but who were not available to start work in the reference week, as well as persons who did not work, did not have a new job to start in four weeks or less, were not on temporary lay-off or did not look for work in the four weeks prior to enumeration. Most persons in this category would be students, homemakers, retired workers, seasonal workers in an "off" season who were not looking for work and persons who could not work because of a long-term illness or disability.

LABOUR FORCE ACTIVITY - Refers to the labour market activity of the working age population (15 yrs. +) who, in the week prior to June 3, 1986, were either employed or unemployed. The remainder of the working age population is classified as not in the labour force. Data are available for persons 15 years of age and over, excluding institutional residents.

EMPLOYED - Refers to persons who, during the week prior to June 3, 1986, worked for wages and salary, all persons working in their own business, farm or profession, and all persons working without pay in a family farm or business during the reference week, as well as persons who were absent from their job or business because of illness, labour dispute at their place of work, vacation, etc.

CLASS OF WORKER (DERIVED) - This variable classifies persons who reported a job into those who (i) worked mainly for someone else for wages, salaries, commission or payment in kind (ii) worked without pay for a relative in a family business or farm or (iii) worked mainly for themselves, with or without paid help. This variable is based on the population 15 years of age and over, excluding institutional residents, who worked since January 1, 1985.

DÉFINITIONS

POPULATION

LANGUE MATERNELLE - Expression désignant la première langue apprise dans l'enfance et encore comprise par la personne au moment du recensement. Si la personne comprend plus d'une langue, seule la langue apprise la première a été déclarée. Si deux langues ont été apprises en même temps, la langue dans laquelle la personne communique le plus souvent à la maison a été déclarée. Si la personne emploie les deux langues selon une égale fréquence, les deux ont été déclarées. Dans le cas d'un(e) enfant qui n'a pas encore commencé l'apprentissage d'une langue, c'est la langue qu'il/elle apprendra la première à la maison qui a été déclarée.

POPULATION ACTIVE TOTALE (pendant la semaine de référence) - La population active totale comprend à la fois la population active expérimentée et celle qui ne l'est pas. Cette expression englobe les personnes de 15 ans et plus qui travaillaient ou étaient en chômage pendant la semaine précédant le recensement.

POPULATION ACTIVE EXPÉRIMENTÉE - Variable obtenue en retranchant de la population active totale celle qui n'a pas d'expérience de travail. Cette notion comprend les personnes qui travaillent et celles qui sont en chômage, bien qu'elles aient travaillé pendant quelque temps au cours des 18 mois qui ont précédé le recensement et soient prêtes à travailler.

POPULATION ACTIVE SANS EXPÉRIENCE DE TRAVAIL - La population active sans expérience de travail désigne les chômeurs âgés de 15 ans et plus qui n'ont jamais travaillé ou qui ont été sans travail seulement depuis le 1^{er} janvier 1985.

INACTIES - La cadégorie des inactifs comprend les personnes qui, pendant la semaine précédant le recensement, n'étaient pas prêtes ou aptes à travailler. Plus particulièrement, ce sont les personnes qui avaient cheché du travail au cours des quatre semaines précédentes mais qui ont déclaré ne pas être prêtes à travailler pendant la semaine de référence, de même que less personnes qui n'ont pas travaillé, n'avaient pas d'emploi auquel elles devaient se présenter au cours de quatre semaines ou moins, n'avaient pas été mis à pied temporairement et n'avaient pas cherché de travail pendant les quatre semaines précédant le recensement. Cette catégorie ess surtout constituée de ménagères, d'étudiants, de retraités, de travailleurs saisonniers en période «creus» qui ne cherchaient pas de travail au cours de cette période et de personnes incapables de travailler à cause d'une maladie ou invalidité de longue durée.

ACTIVITÉ - On entend par là l'activité sur le marché du travail de la population en âge de travailler (15 ans et plus) qui, au cours de la semaine précédant le 3 juin 1986, faisait partie de la population active occupée ou de la population active en chômage. Les autres personnes, en âge de travailler, ont été classées dans la catégorie des inactifs. Les données présentées se rapportent à des personnes âgées de 15 ans et plus, à l'exclusion des pensionnaires d'institution.

PERSONNES OCCUPÉES - Comprennent toutes les personnes qui, au cours de la semaine précédant le 3 juin 1986, avaient un travail rémunéré, qu'il s'agisse des personnes exploitant leur propre entreprise ou exploitation agricole, ou exerçant une profession libérale, de celles travaillant sans être rémunérées dans une entreprise ou exploitation agricole familiale au cours de la semaine de référence, ou de celles qui étaient absentes de leur travail ou entreprise à cause d'une maladie, d'un conflit de travail à leur établissement, de vacances ou pour d'autres raisons.

OCCUPATION - Refers to the kind of work persons were doing during the reference week, as determined by their kind of work and the description of the most important duties in their job. If a person did not have a job during the week prior to enumeration, the data relate to the job of longest duration since January 1, 1985. Persons with two or more jobs were to report the information for the job at which they worked the most hours. Occupations are identified and grouped primarily in terms of the "work performed". The inexperienced unemployed (i.e. those persons who had never worked or who had only worked prior to January 1, 1985) are shown in the category "Occupation Not Applicable".

PARTICIPATION RATE - Refers to the total labour force (in reference week) expressed as a percentage of the total population 15 years of age and over, excluding institutional residents, in an area, group or category.

TOTAL PERSONAL INCOME - Refers to the total money income received during the calendar year 1985 by persons 15 years of age and over.

AVERAGE INCOME OF INDIVIDUALS - Refers to the weighted mean total income of individuals 15 years of age and over who reported income for 1985. Average income is calculated by dividing the aggregate income of a specified group of individuals by the number of individuals with income in that group.

MOBILITY STATUS - Refers to the relationship between a person's usual place of residence on Census Day and his/her usual place of residence five years earlier. On the basis of this relationship, the population is classified as non-movers and migrants.

Non-movers are persons who, on Census Day, were living in the same dwelling they occupied five years earlier.

Migrants are movers who, on Census Day, were residing in a different Census Subdivision within Ontario or Canada five years earlier or who were living outside Canada five years earlier.

PLACE OF BIRTH - Refers to the specific province if born in Canada or to the specific country if born outside Canada.

BORN IN CANADA - All persons born in Canada, including those who were born in Canada who do not have a Canadian Citizenship by birth , but have subsequently immigrated to

BORN OUTSIDE CANADA - All persons born outside Canada, including those born outside Canada who do have a Canadian Citizenship by birth and, therefore, will not have immigrated to Canada.

SCHOOLING: HIGHEST LEVEL OF - Refers to the highest grade or year of elementary or secondary school attended, or the highest year of post-secondary non-university or university education completed by the person. The definition emphasizes completion (rather than attendance) beyond the secondary level.

STATUT PROFESSIONNEL (variable calculée) - Selon cette variable, les personnes qui ont déclaré avoir exercé un emploi sont classées dans les catégories suivantes : (i) les personnes ayant travaillé surtout pour le compte d'une autre personne contre rémunération, à la commission ou contre rémunération en nature; (ii) celles ayant travaillé sans être rétribuées pour un membre de la famille dans une entreprise ou une exploitation agricole familiale; (iii) celles ayant travaillé surtout à leur compte, avec ou sans main-d'oeuvre rémunérée. Cette variable porte sur la population âgée de la 5 ans et plus, à l'exclusion des pensionnaires d'institution, qui travaillait **depuis** le 1^{et} janvier 1985.

PROFESSION - Cette expression désigne le genre de travail que faisaient les personnes pendant la semaine de référence. Le genre de travail exécuté est défini à partir du type d'emploi et de la description des tâches les plus importantes qui s'y rattachent. Si le recensé n'avait past d'emploi au cours de la semaine précédant le recensement, les données portent alors sur l'emploi qu'il a occupé le plus longtemps dépuis le 1^{ett} janvier 1985. Les personnes ayant occupé plus d'un emploi devaient donner des renseignements sur celui auquel elles avaient consacré le plus grand nonthre d'heures. Des professions sont identifiées et regroupées essentiellement à partir du genre de «travail exécuté». Les personnes en chômage et sans expérience de travail (c.-à-d. les chômeurs qui n'ont jamais travaillé ou qui ont travaillé uniquement ayant le 1^{ett} janvier 1985) sont comprises dans une catégorie distincte, «Profession, aucune».

TAUX D'ACTIVITÉ - Désigne le pourcentage de la population active totale (pendant la semaine de référence) par rapport à la population totale de 15 ans et plus, dans un secteur, un groupe ou une catégorie donnée, à l'exclusion des pensionnaires d'institution.

REVENU TOTAL - Désigne le revenu monétaire total touché par les personnes âgées de 15 ans et plus durant l'année civile 1985.

REVENU MOYEN DE PERSONNES - Désigne le revenu total moyen pondéré touché par les personnes âgées de 15 ans et plus qui ont déclaré un revenu pour 1985. Pour obtenir le revenu moyen, on divise le revenu global d'un groupe défini de personnes par le nombre de personnes touchant un revenu au sein de ce groupe.

MOBILITÉ - La mobilité est déterminée d'après la réponse à la question concernant le domicile habituel d'une personne le jour du recensement et son dornicile habituel cinq ans plus foi. La réponse à cette question permet de classer la population en personnes n'ayant pas déménagé et en mirrants.

Les personnes n'ayant pas démênagé sont celles qui, le jour du recensement, demeuraient dans le même logement que celui qu'elles occupaient cinq ans plus tôt.

Les migrants sont des personnes qui, le jour du recensement, résidaient toujours en Ontario ou au Canada mais dans une subdivision de recensement différente de celle où elles résidaient cinq ans plus tôt ou encore ce sont des personnes qui résidaient à l'extérieur du Canada cinq ans plus tôt.

LIEU DE NAISSANCE - Désigne la province ou le territoire de naissance particulier, pour les personnes nées au Canada, ou le pays de naissance pour celles nées à l'extérieur du Canada.

GEOGRAPHY

CENSUS DIVISION (CD) - Refers to the general term applying to census divisions, counties, regional districts, regional municipalities and five other types of geographic areas made up of groups of census subdivisions. In Ontario there are 49 census divisions.

have a high degree of economic and social integration with that core. A CMA is defined as the based on the previous census. Once an area becomes a CMA, it is retained in the program even if its population subsequently declines. CMA's are created by Statistics Canada and are usually CENSUS METROPOLITAN AREA (CMA) - The general concept of a census metropolitan area is one of a very large urbanized core, together with adjacent urban and rural areas which main labour market area of an urban area (the urbanized core) of at least 100,000 population. known by the name of their largest city. CMA's comprise one or more census subdivisions (CSD's) which meet at least one of the following criteria:

b) at least 50% of the employed labour force living in the CSD works in the urbanized a) the CSD falls completely or partly inside the urbanized core;

c) at least 25% of the employed labour force working in the CSD lives in the urbanized

There are 10 CMA's in Ontario.

classified into various types, according to official designators adopted by provincial or federal CENSUS SUBDIVISION (CSD) - Refers to the general term applying to municipalities, Indian reserves, Indian settlements and unorganized territories. Census subdivisions are authorities. CENSUS AGGLOMERATION (CA) - The general concept of a census agglomeration (CA) is 100,000, based on the previous census, it becomes a census metropolitan area (CMA). There are degree of economic and social integration with that core. A census agglomeration is defined as the main labour market area of an urban area (the urbanized core) of at least 10,000 population, one of a large urbanized core together with adjacent urban and rural areas which have a high based on the previous census. Once a CA attains an urbanized core population of at least 32 CA's in Ontario.

metropolitan areas and all census agglomerations with a census subdivision having a population CENSUS TRACT (CT) - Refers to a permanent small census geostatistical area established in large urban communities with the help of local specialists interested in urban and social science research. Census tracts are reviewed and approved by Statistics Canada. All census of 50,000 or more at the previous census are eligible for a census tract program.

INDIAN RESERVE - Refers to land, the legal title to which is vested in Her Majesty, that has been set apart for the use and benefit of an Indian band and that is subject to the terms of the Indian Act. Since it is generally excluded from local jurisdiction and is administered by the Federal Department of Indian and Northern Affairs Canada, it is classified as a census subdivision (CSD) by Statistics Canada.

Northern Affairs Canada for statistical purposes only, where a self-contained group or at least 10 INDIAN SETTLEMENT. Refers to places, identified by the Federal Department of Indian and Indian people reside more or less permanently.

NÉ(E) AU CANADA - Toutes les personnes nées au Canada, y compris celles qui sont nées au Canada mais qui ne sont pas citoyens canadiens de naissance, mais qui ont par la suite immigré au Canada.

Canada, y compris celles qui ne sont pas nées au Canada mais qui sont citoyens canadiens de NÉ(E) À L'EXTÉRIEUR DU CANADA - Toutes les personnes qui ne sont pas nées au naissance et qui, par conséquent, n'ont pas immigré au Canada. SCOLARITÉ, PLUS HAUT NIVEAU ATTEINT - Désigne le plus haut niveau atteint à l'école postsecondaire non universitaire ou de scolarité universitaire atteint par la personne. Au-delà du cycle secondaire, la définition met l'accent sur l'année d'études terminée avec succès plutôt élémentaire ou secondaire en terme d'assiduité, ou le plus haut niveau de scolarité que sur l'assiduité aux cours.

GÉOGRAPHIE

recensement, les comtés, les districts régionaux, les municipalités régionales et cinq autres types DIVISION DE RECENSEMENT (DR) - Terme générique qui désigne les divisions de de régions géographiques formées de groupes de subdivisions de recensement. Il y a 49 divisions de recensement en Ontario. RÉGION MÉTROPOLITAINE DE RECENSEMENT (RMR) - Le concept général de région comprennent au moins une subdivision de recensement (SDR) qui satisfait à un ou plusieurs des urbaines et rurales avoisinantes qui y sont très fortement intégrées sur les plans économique et recensement, même si sa population diminue par la suite. Les RMR sont créées par Statistique métropolitaine de recensement désigne un noyau urbanisé très important ainsi que les régions Canada et sont ordinairement désignées par le nom de leur ville la plus importante. Les RMR social. Une RMR se définit comme étant le principal marché du travail d'une région urbaine (noyau urbanisé) comptant 100 000 habitants ou plus selon le dernier recensement. Une fois qu'une région accède au statut de RMR, elle demeure dans le programme de secteurs de critères suivants:

 a) Elle se trouve en totalité ou en partie à l'intérieur du noyau urbanisé;
 b) au moins 50 % de la population active occupée demeurant dans la SDR travaille dans le noyau urbanisé;

c) au moins 25 % de la population active occupée travaillant dans la SDR demeure dans le noyau urbanisé.

Il y a en tout 10 régions métropolitaines de recensement en Ontario.

SUBDIVISION DE RECENSEMENT (SDR) - Terme générique qui désigne les municipalités, subdivisions de recensement sont classées en diverses catégories selon les désignations les réserves indiennes, les établissements indiens et les territoires non organisés. Les officielles adoptées par les autorités provinciales ou fédérales.

recensement (AR) désigne un noyau urbanisé important ainsi que les régions urbaines et rurales AGGLOMÉRATION DE RECENSEMENT (AR) - Le concept général d'agglomération de agglomération de recensement se définit comme étant le principal marché du travail d'une avoisinantes qui y sont très fortement intégrées sur les plans économique et social. Une

CENSUS FAMILIES

HUSBAND AND WIFE FAMILY - Refers to a husband and a wife, with or without children. For census purposes, persons living in a common-law type of arrangement are now considered as married, regardless of their legal marital status; they accordingly appear as a husband-wife family in most census tables.

LONE PARENT FAMILY - Refers to a mother or a father, with no spouse present, living in a dwelling with one or more never-married children.

CHILD - Refers to sons and daughters (including adopted children and stepchildren) who have never married, regardless of age and are living in the same dwelling as their parent(s). Sons and daughters who have ever been married, regardless of ther marial status at enumeration, are not considered as members of their parents' family, even though they are living in the same dwelling.

région urbaine (noyau urbanisé) comptant au moins 10 000 habitants selon le dernier recensement. Une fois que la population du noyau urbanisé d'une agglomération de recensement a franchi le cap des 100 000 habitants selon le dernier recensement, l'agglomération en question accède au statut de région métropolitaine de recensement (RMR). Il y a en tout 32 agglomérations de recensement en Ontario.

SECTEUR DE RECENSEMENT (SR) - Expression qui désigne une petite unité géostatistique permanente de recensement établie dans les grands centres urbains avec l'aide de spécialistes locaux qui s'intéressent à la recherche en urbanisme et en sciences sociales. Les secteurs de recensement sont délimités et approuvés par Statistique Canada. Toutes les régions métopolitaines de recensement et toutes les agglomérations de recensement dont la subdivision de recensement compais 30 (000 habitants ou plus au recensement précédent sont admissibles à un programme de secteurs de recensement.

RÉSERVE INDIENNE - Expression qui désigne la parcelle de terre dont le titre légal de propriété est dévolu à Sa Majesté et qu'Elle a mise de côté à l'usage et au profit d'une bande d'Indiens, et qui est assujetite aux dispositions de la Loi sur les Indiens. Étant donné que les réserves indiennes ne sont généralement pas du ressort des autorités locales et qu'elles sont administrées par le ministère fédéral des Affaires indiennes et du Nord canadien, elles sont considérées comme subdivisions de recensement (SDR) par Statistique Canada.

ÉTABLISSEMENT INDIEN - Expression qui désigne les lieux, identifiés par le ministère fédéral des Affaires indiennes et du Nord canadien à des fins statistiques seulement, et où un groupe autonome ou 10 Indiens ou plus sont établis de façon plus ou moins permanente.

FAMILLES DE RECENSEMENT:

FAMILLE COMPRENANT L'ÉPOUX ET L'ÉPOUSE - Expression qui désigne un couple marié avec ou sans enfants. Aux fins du recensement, les personnes vivant en union libre sont désormais considérées comme mariées, quel que soit leur état matrimonial légal, et figurent donc comme des familles époux-épouse dans la plupart des tableaux de recensement.

FAMILLE MONOPARENTALE - Expression qui s'applique à une mère ou à un père, sans conjoint, qui habite dans un logement avec un ou plusieurs enfants célibataires.

ENFANT - Expression qui désigne les fils ou les filles (y compris les enfants adoptés et les enfants d'un autre lit) qui sont toujours célibataires, peu importe leur âge, et qui habitent dans le même logement que leur(s) parem(s). Les fils et les filles qui ses sont déjà mariés, peu importe leur état marimonal au moment du recensement, ne sont pas considérés comme des membres de la famille de leurs parents, même s'lls vivent sous le même toit.
